Lot	Description
-----	-------------

2	Craftsman Port. Tool Box w/Tools
---	----------------------------------

3	Clausing Series 22S Floor Drill, s/n 101149, 4" Vise
---	--

4	Supply Cabinet w/Contents Including Handles, Knobs, Controls, Etc.
---	--

5	Supply Cabinet w/Taps, Dies, Reamers, Etc.
---	--

6	Supply Cabinet w/Gear Pullers, Kits, Etc.
---	---

7	Boyar #510 Hand Surface Grinder, 10" Mag Chuck, s/n 7034
---	--

8	B&D D.E. Pedestal Buffer/Grinder, 3 Phase, 3/4 HP, 8"
---	---

9	Dayton D.E. Pedestal Grinder
---	------------------------------

10	Lempco Series 341 Hyd. H-Frame Press, s/n 348, 9" Ram, 60 Ton, 3 PH.
----	--

11	L-Tec 225 Port. Welder, s/n B89G-00826, ST-23 Mig Torch
----	---

12	Oxy-Acet. Cart w/Torch & Gages
----	--------------------------------

13	Milwaukee Mag Drill
----	---------------------

14	Large Gear Puller
----	-------------------

15	6" Shop Vise
----	--------------

16	Approx. (23) Asst. C-Clamps, Vise, Steel Bench
----	--

17	Craftsman Tool Box w/Welding Rods
----	-----------------------------------

18	4" Shop Vise w/H.D. Steel Table
----	---------------------------------

19	Vetter 1600 Kg. Port. Gantry, s/n 900786.1, w/(2) Vetter 750 Kg. Elec. Hoists, Approx. 16' Span
----	---

20	Dayton 250 Amp AC/DC Port. Welder
21	Craftsman Tool Boxes w/Tools
22	Asst. Steel Legged Tables
23	Pedestal Arbor Press
24	Proto Port. Tool Box w/Tools
25	Milwaukee Thunderbolt Rotary Hammer w/Case
26	Milwaukee Sawzalls
27	(3) Air Grinders, (3) Elec. Grinders w/Grinding Wheels
28	Drum Dolley, Hand Truck, 8' Ladder
29	Master 135,000 BTU Port. Heater
30	Craftsman Tool Box w/Blue Port. Stand
31	Bridgeport Vert. Mill, s/n 46150, 32" P.F. Table, 3 PH.
32	Supply Cabinet w/Number/Letter Punch Sets, Broach Sets, Tool Holder
33	2015 Cold Jet Mod. AERO 40FP Port. Full Pressure Dry Ice Cleaning System, 170 Hours, s/n 2A0290-G1-F, w/Gun & Wands
34	Hotsy-Clean Port. Pressure Washer
35	2016 Atlas-Copco GA30FF Rotary Screw Air Compressor w/Vert. Air Tank, s/n AP1330558, 3 PH., 40 HP, 5581 Hours
37	Enco 110-2032 Lathe, s/n 88458, 3 & 4 Jaw Chucks, Tool Post w/Holders
38	Asst. Rigging Bolts
39	Asst. Micrometers
40	Enco 6" Carbide Grinder w/Table
41	Pneumatic Sanders w/Discs
42	Dewalt Elec. Grinder, Milwaukee Elec. Drill & (2) Jig Saws

43	Rototec Model 800 Powder Flame Sprayer
44	Heat Gun, Dremel Tool, Porter Cable Sander, Milwaukee Drill
45	Milwaukee Right Angle Drive w/Case
47	Caterpillar GC40KSTR LPG Forklift, s/n AT87A02009, 183" Lift, 5100 Lbs., 9450 Hours, 3-Stage Mast (Late Removal - Available December 30th)
48	(8) 60" Wide Sunex unwind stands, (2) for 40" OD rolls, (6) for 50" OD rolls, various solid shafts with chucks included
49	31" Wolverine Model 31-6 HLRE Hydroline 6-color stack flexographic printing press. 31" web width. 30" print width. Press was printing paper inline with paper bag machine. 10 pitch gearing. Capable of printing on films, papers, laminations & light board. Could be put inline with blown film extrud ...[more]
50	LP Storage Cages (No Tanks)
51	3 HP & MTE25 Hyd. Units
52	KR West Hyd. Unit w/Controls
53	Poly Pac R20-A-10BMT, 20 Gal. Hyd. Unit, 10 HP
54	Rendsen 10 HP Hyd. Unit
55	Poly Pac P87-690 Hyd. Unit, 10 Gal., 2 HP
56	3 HP & 1 HP Hyd. Units
57	118" single shaft, center rewind, custom-built slitte rewinder. Most recently used as a rereeler for coated film. Score slitting. Male air-loaded score cut knives with dovetail bar. Hardened score roll. (10) male knives included. Attached unwind. 34" OD unwind roll. Unwind shaft is carbon fibre air ...[more]
58	Asst. Seal Master, SKF, Morse Bearings. Including:Sealmaster ER-12 .75" Bore Bearing Blocks – Approximately 100Sealmaster ER-16 1" Bore Bearing Blocks – Approximately 36Sealmaster ER-32 2" Bore Bearing Blocks – Approximately 179Sealmaster NP-12 .75" Bore Bearing Blocks – Approximately 3Sealmast ...[more]
59	Lincwelder DC250 Welder (Fair)
60	20-52" Hamblet heavy-duty shaftless, roll pickup, single position unwind. Maximum roll diameter, 84". 1000 feet per minute. Unwind can be made wider easily. Dependent upon weight of each roll. Each side has approximately 24" of lead screw adjustment. Can cut the plate connecting the two sides & ...[more]
61	70" Lembo single position unwind. Maximum diameter roll, 50". One 3" air unwind shaft. 10" Montalvo air brake, fan cooled. Manual chucking of unwind shaft. Push-button edge guiding, left / right, +/-6". Linear actuator. Currently set up with air shaft. Unwind could be used as a shaftless unwind; need ...[more]
62	Reliance Electric Flexpak 3000 DC variable speed drive. New, never installed. 230 / 460 volt.

63	58" Meech static eliminator, Model 903. Power supply, 110 voltage, 50/60 cycle. 58" wide. Richmond Pulse flow controller, static eliminator; set up on 120 voltage. (3) bars & (4) nozzles. These static eliminators were inline with a sheeter that had been sheeting film products. Ages approx. 2000. ...[more]
63A	62" Converttech spacerless differential rewind shafts. Two shafts. These shafts were on a Dusenbery 635 center rewind slitter rewinder. Operating at approximately 600 feet per minute. Converttech Inc., Serial # 05533020. 6" diameter. 60" face width. 1" wide bands. 73.75" total length. Lift-out rewind ...[more]
64	Roots EasyAir X2 vacuum system. Model X2-65-36 U-RAI. Blower serial # 1110940839EA. Part # RHEAPKG00597. Includes a Universal Acoustic & Emission Technologies muffler silencer, Model CB-3, Part # 56703AA. This is a complete system. Approximately 800 lbs. 4x4 skid. Approximate age, 2013. Machine ...[more]
65	Dayton 150,000 BTU Port. Heater
66	New York Blower Company. Fan description: ACP/PLR. Fan Class I-III. Shop # MOO815-105. Size: 18ACF. 20 HP Siemens AC motor, 230 / 460 voltage, 60 cycle. This blower was inline with dryer. Dimensions: 5 feet, 6 inches x 7 feet, 6 inches. 1200 lbs.
67	330 Gallon Oil Storage Tank, 12 Gage
68	30" score cut slitting section. This slitting section was inline with a flexographic printing press. Was mounted before rewind. Believe manufactured by Dienes. 32" wide hardened steel roll, 3.5" diameter hardened steel roll; that is the scoring roll. Can be driven. (33) Dienes air-loaded score cut k ...[more]
69	Ziehl - Abegg female shear cut knives. These knives were inline with a 110" slitter rewinder operating at approximately 5,000 feet per minute. Total of (19) knives; all the same. 250mm diameter. Approximately 15mm width of female shear cut knife. Each knife has electric motor which drives the knife. ...[more]
70	Asst. Diaphram Pumps
71	15 HP Motor on Port. Stand
72	1 HP Hyd. Unit w/Fixture
73	G.E. 40 HP, 240 Volt DC Motor
74	Asst. V.S. Drives & PIVs
74A	Asst. Weber 5 Formers
75	3" roll doctor. Believe Siat machine; does not have manufacturer's plate. Bench mounted. Table top. Intended for salvage work. Was being used for salvage work on tape products. Cantilevered unwind & rewind. Penta drive. DC motor. Variable speed drive. Set up on 115 volt, single phase, 60 cycle. ...[more]
76	Jagenberg male shear cut knives & holders. (6) male knives. Age of knives approx. 1980. These shear cut knives were on a Vari Dur 2-drum surface slitter rewinder. Minimum slit width approx. 4". Knives are air loaded. Photographs are available showing the (6) knives & the features of the kniv ...[more]

77	6" & 3" Rockport Machine & Tool single color flexographic print stations. Two machines being sold together. One machine is Model 6500, 6" wide maximum web, Serial # 1799. Other machine is Model 3500R, 3" wide maximum web, Serial # 96.0403. Speeds up to 400 feet per minute advertised. 5" diam ...[more]
78	(6) 32" Rolls for QMS 922
78A	Asst. W&H QMS945 32" Rubber & Annilox Rolls, W&H QMS945 31" Face Width
79	(11) Asst. V.S. Drives
80	Fife Guides
81	Fife Guides
82	Fife Guides
82A	Asst. Weber 3 Formers
82B	Asst. Dusenbery Lay On Rolls with Arms
82C	65" Mount Hope Bowed Roll
83	(15) Asst. Motors, Various HP's, 1 HP - 25 HP
84	(2) Baldor 15 HP, Motors & (2) Reliance Electric 7.5 HP Motors
85	Caterpillar GC45KS LPG Forklift, s/n AT87A00116, 209" Lift, 9100 Lbs., No Forks, Sideshift. 6024 Hours
86	Caterpillar T80D LPG Forklift, s/n 5KBO4924, 188" Lift, 7800 Lb., 7094 Hours, Tow Lift-Cascade Mast, No Forks, Was Used w/Clamp Attachment
88	36" Windmoller & Holscher QMS 992 4-color inline flexographic printing press. Serial # 11001. 37" wide print cylinders. Most recently printing kraft paper for paper bags. 36" web width, 6" diameter. 38" wide impression roll, 5" diameter. 32" wide chrome anilox rolls. 9" to 31" repeat. 10 pitch. ...[more]
90	Asst. Hubbell & Asst. Pigs w/Cable & Port. Cart
91	40" Stanford Model 212 HD heavy-duty single shaft, center rewind slitter rewinder. Also used as a roll doctor. Serial # 8743839B. Model 212 HD. 2400 lbs. maximum roll weight. 2000 feet per minute. Single position detached unwind. SL Series. Air chucking to hold unwind shaft in place. Air-loaded danc ...[more]
92	Dayton 7.5 HP Motor & Square D 15 KVA Transformer
93	32" shear cut section with grooved razor roll. Shear cut section was removed from 30" wide Arrow slitter rewinder. Includes (5), 35" face width, 38.5" wide male shafts. ID of male & female shear knives is 60mm. OD of male shear cut knife is 103-105mm. OD of female shear knife is 85mm. Includes (...[more]

94	6" Enercon treater station. Serial # 102199. Model LM5238. Age 2012. One single position unwind, cantilevered, 20" diameter rolls, 3" cores. Air brake. Manual edge guiding. Treater has two heads. Rating 1 kw, Model LM5269-RO-35. Two treater bars / two treater heads, rating 1 kw, Model LM5269-RO-3. S ...[more]
95	68" Northern Engraving composite roll to steel roll embossing system. Serial # of embosser, 19749. 50 HP AC variable speed Marathon Manufactured motor. Set up for 230/460 voltage. No drive for motor. 68" web width. 68" wide steel roll. 10.5" diameter Northern Engraving Manufactured steel emboss roll ...[more]
96	65" Goebel manufactured wetting / coating / moisturizing station. This station was coating the web with water to remoisturize the web. Operating speed, 1000 feet per minute. Has Siemens AC drive motor, which drives the coating roll when coating. Set up for 380 volt, 3 phase, 50 cycle. Two idler roll ...[more]
97	57" single position unwind stand. This unwind was inline with a sheeter unwinding tissue paper. Could be used for unwinding film, paper, nonwovens & foil. 57" maximum web width. 20" diameter roll. One 3" air lug unwind shaft. Has floor pickup capability to pick the unwinding roll up off of the f ...[more]
98	32" W&H single position unwind stand. 3" air shaft. 40" diameter rolls. Floor pickup capability. 230 / 380 voltage. This unwind was inline with a paper bag machine.
99	New York Blower Company. Fan description: ACF/PLR. Fan Class I-III. Shop # MOO815-100. Size: 27PLP. 60 HP motor, AC, 460 voltage, 60 cycle, 3 phase. This blower was inline with a drying tunnel. Dimensions: 7 feet, 6 inches x 5 feet, 6 inches. 1500 lbs.
100	(2) Pallets of Motor Bases
100A	63" Nordmeccanica 4-roll, chill roll / heat roll system. Age 2005. 64" wide idlers. This chill roll / heated roll section was inline with a laminator. Diameter of each of the four rolls is 9.5" diameter. Rolls can be heated or chilled. Included is Sterlco hot-oil heater, Model M2B-2016-MI. Set up on ...[more]
101	(3) Fuji electric regenerative blowers. Model VFD9. 20.5 HP AC motor; manufacturer of motor is Elektros. 230 / 460 voltage, 3 phase, 60 cycle. Maximum pressure 5.5 PSIG (153" of water). Maximum vacuum 9.7" of HG (132" of water). Maximum flow 620 SCFM. 3" inlet / outlet. Industrial duty, oilless air b ...[more]
102	60" Black Brothers TB-60 hot-roll laminate heat-activated adhesive-backed decorative foils & papers, top & bottom simultaneously. Capable of running up to 400 five-foot wide boards per hour, single or double-sided. High productivity. Designed to withstand high temperatures and rigorous use. ...[more]
103	American Fan trim blower system. Model OVP-7-08F-30A. This is a trim blower system that was inline with a 110" slitter rewinder, trimming the edges. Slitter was operating at 4000 feet per minute. Trim removal for paper & light board. Trim blower has 50 HP Baldor motor, 230 / 460 volt, 3 phase, 6 ...[more]
104	88" Duncan Technologies inspection machine. Age 2001. Serial # DT10014-01. Idlers in machine are 91" wide, 4" diameter. Single position unwind & single position center rewind, set up for 3" cores with 4" adapters. Controls are air brake pressure, electronic edge guiding, pneumatic core loading. ...[more]
105	68" Cameron Model 420 2-drum surface rewind, single shaft slitter rewinder. Serial # L-7260. 42" diameter rewind. Frames are heavy-duty. 70" wide, 6.25" diameter solid steel bedrolls. Upper rider roll, 4.75" diameter, steel with rubber covering on upper rider roll; this assists with gripping and ens ...[more]
106	25" Windmoller & Holscher QMS-945, 2-color on 3-color frame, flexographic inline tailend printing press. Some parts to 3rd print station. 26" web width. 25" print width. 26" rubber roll. 26.5" anilox rolls. 27.5" impression cylinders. 9" to 31.5" repeat range. QMS-945 printer is also referred to ...[more]

107	Holweg Model RS-2 Roto Simplex perforator cutoff, variable size paper bag machine to manufacture flat & gusseted bags. Machine # DA188. 10 pitch. Perforator cutoff. Operates with wide range of materials including tissue, dry or waxed paper, glassine, bond, sulfite or kraft papers up to 65 lbs. & ...[more]
108	40" Potdevin single position unwind stand. Unwind was inline with Potdevin bag machine. 60" diameter roll. 3" shaft. Floor pickup with air cylinders. Manual side shifting +/- 1". Has paddle drag brake. Two steel idlers, 47" wide, 3.5" diameter.
109	52" Goebel Practica Model H3 1000 surface rewind slitter rewinder for high-speed production of rolls. Has been set up as a shaftless rewinder. Can operate as shafted rewind by purchasing rewind shafts. Former owner was rewinding 3" ID product shaftless; is adjustable width. Can handle 1" ID on rewin ...[more]
110	H.G. Weber Model 30A Die Cutting Mesh System, Style MWB, s/n 558
112	20" Stanford Model 152 HD reversible roll doctor. Serial # 5874702. Cantilevered unwind & rewind shafts. Shear cut slitting. (2) male knife holders. (5) female shear knives. Minimum slit width, 2.5". Splice system. 3" air shafts on unwind & rewind. Model 152 HD is a reversible roll doctor. 4 ...[more]
113	31" Windmoller & Holscher Alina X, 3-color, flexographic inline tailend printing press. Serial # 7255. 32" web width. 31" print width. 32.5" rubber roll. 32.5" anilox rolls. 32.5" impression cylinders. 9" to 31.5" repeat range. Alina X30 flexographic tailend printer. 30" drying distance between ...[more]
114	26" Gannicott sheeter / stacker / inserter. Serial # 8196. Age 2000. This sheeter was sheeting posted notes. Has inserter which was adding back sheet. Servos and drives need to be updated. Has Unico AC drive, Model 2400 Performance drive, set up for 460 volt, 3 phase, 60 cycle. AC drive motors, 1.5 ...[more]
115	31" Windmoller & Holscher Alina X, 3-color, flexographic inline tailend printing press. Serial # 7252. Some parts to the fourth print station. 32" web width. 31" print width. 32.5" rubber roll. 32.5" anilox rolls. 32.5" impression cylinders. Alina X30 flexographic tailend printer. 30" drying dis ...[more]
116	42" Arrow Model 325, Slitter Rewinder, minimum gap rewind, center rewind, cantilevered rewind shafts, duplex slitter rewinder. Designed for narrow width slitting. Serial # 13502. Minimum gap center rewind. Moveable rewind shafts which allow for adjustable minimum gap rewinding capability for narrow ...[more]
117	Castaldini paper bag machine. Model E100 EIS 2000 Evoluzione. Age 1994. Flat & gusseted pinch bottom bags. Perforator cutoff. Film window runs the front of the bag; used for bread bags. Unwind roll of film for window film. Single ply bags. Former owner's typical production when printing 4-colors ...[more]
119	15" Hudson Sharp designed paper-to-steel embossing section. Embossing pattern needs to be re-engraved onto steel roll. Most recently been used as a pull roll section and as a perforating system. Was inline with Hudson Sharp / FMC wipes folder. Was also perforating nonwovens wipes. Operating at appro ...[more]
120	Peerless blank fed plate & tray forming line. Age approx. 1997. Serial # BF4-01-01. Was making food service trays. Takes die cut blanks, put in lifting / feeding section. Forming head section. Conveyor / stacker delivery section. Blank feed. Model BF57.5 gear driven variable speed 30-ton blank p ...[more]
122	Graco 3 Part Mixer/Pumping System. Was used to mix 2-part silicone adhesive. The third tank/pump was not used. Silicone Parts A & B were ratio at the mixing head. Lines & tanks were insulated and tanks heated. Model DL-3. Serial # 7233. Alphanumeric keypad. Flow rate set up screen, cali ...[more]
123	13.25" Propheteer Model 1300 L single color flexographic printing press. 13" print width. 40" diameter unwind. 40" diameter rewind. 6" to 15" repeat range. Can purchase adaptor to increase to 24" repeat. Model 1300 L. Serial # 02189. Age 2002. AC variable speed drive. ABB controller, Model ACS 600, ...[more]

124	18" Enercon Deluxe Coronaflex treater. Age 2015. Designed for high-speed flexographic digital printing applications. Intuitive touch-screen control. Includes treater station, transformer, power supply, remote control exhaust system, keypad touchscreen. Serial # 122843-01. Model LM5809-18PVH-2DRB1B. ...[more]
125	20" Webex single position unwind. Maximum diameter roll, 30". Width of idler rolls, 22", 4" diameter, aluminum. One 3" air unwind shaft. Unwind is cantilever design; easy loading & unloading. 8" diameter Montalvo air brake, air-operated. Montalvo K Model PC-1 tension controller with tension roll ...[more]
126	20" Webex single position unwind. Maximum diameter roll, 30". Width of idler rolls, 22", 4" diameter, aluminum. One 3" air unwind shaft. Unwind is cantilever design; easy loading & unloading. 8" diameter Montalvo air brake, air-operated. Montalvo K Model PC-1 tension controller with tension roll ...[more]
127	Valley Tissue Packaging automatic diverter with choke infeed system. Serial # C261-1500-4-4-97. Model 1500, Type 4-4 BRT. Originally set up for 4-lane infeed. Parts have been removed so is a 2-lane choke infeed. Age 1997. 4:4 diverter with a 5' wide x 12', 6" long conveyor system. Shuttle the produc ...[more]
128	62" decurler system. Was inline with Clark Aiken sheeter. Two rolls, 68" wide. 5" diameter rolls. 63.5" wide plate & bar. Decurler can vary the depth of plate & bar using push-button motor, 208 /230 / 400 volt, 3 phase, 60 cycle. This decurler system can be bolted to a machine or bolted to t ...[more]
129	32" Eastern Engraving matched, steel-to-steel embossing frame with rolls. Serial # 487. Model Mach 3 Series. Machine includes SSD AC variable speed drive. This embosser was inline with rotogravure printing press printing at approximately 1000 feet per minute. 32" maximum web width. 34.75" wide idler ...[more]
130	42" Kidder CW center rewind, single shaft, slitter rewinder. 40" dia. unwind. 40" dia. rewind. Single motor drive. Shear & score cut slitting. Mount Hope automatic tension control with tension roll. Fife automatic edge guiding on unwind stand +/- 3". Single motor drive. Two air-loaded score cut ...[more]
131	36" single position unwind stand. 40" diameter roll. 2" solid-steel unwind. Shaft with 3" core adapters. 6" diameter air brake. Air-loaded dancer inline. Has manual edge guiding provision, +/- 1". Dancer system. Has air cylinder and regulator. This unwind was inline with a process unwinding film for ...[more]
132	20" Birch Brothers 2-roll calender. This calender was unwinding, calendering nonwovens, slitting and then rewinding rolls. Was used in lab application. Reeves variable speed drive. AC motor. Set up on 220/440 voltage, 3 phase, 60 cycle. Vary the speed mechanically. Typical operating speed 100 FPM. M ...[more]
134	Lawton Model OBRX-RH roll feed, single roll, household bath tissue wrapper. Serial # 914. Wraps individual rolls of household tissue rolls in paper. The standard "O" Series wrapper is capable of mechanical speeds of 80 wraps per minute. Typical production speed, 60 to 65 per minute. Equipped with La ...[more]
135	Lawton Model OBRX roll feed, single roll, household bath tissue wrapper. Serial # 798. Wraps individual rolls of household tissue rolls in paper. The standard "O" Series wrapper is capable of mechanical speeds of 80 wraps per minute. Typical production speed, 60 wraps per minute. Equipped with Lawto ...[more]
136	Lawton Model OBRX-RH roll feed, single roll, household bath tissue wrapper. Serial # 1014. Wraps individual rolls of household tissue rolls in paper. The standard "O" Series wrapper is capable of mechanical speeds of 80 wraps per minute. Typical production speed, 60 to 65 per minute. Equipped with L ...[more]
137	86" Bretting embossing system with matched steel-to-steel embossing rolls. Age 1992. Serial # of embossing stand, 4555-92. Matched steel-to-steel rolls. Standard dimple pattern. Used for industrial hand towels. Serial # of one of the two embossing rolls is Green Bay Embossing 98-3262-04-4860 10-5984 ...[more]

138	28" single position unwind. Custom-built. Was inline with calender operating at approx. 15 feet per minute. 28" web width. 28" diameter rolls. One 3" air steel unwind shaft. 29.5" wide idlers. 2.75" diameter idlers. All aluminum idlers. Single position unwind. Has 6" electric brake with Altec TC 818 ...[more]
139	12" Electrova 2-roll calender. Series CLG-ZM-300Y. Line speed maximum, 5 meters per minute. Power, 5.5 kw. Calendering machine. Size of machine, 300 diameter (12"), 350 width. Pressure capability, 1500KN. Steel-to-steel calender. In very good mechanical condition. Has manual gap adjustment to adju ...[more]
140	PCMC Model ECM-14 high-speed electronic core machine. New 1991. Serial # 7294. Includes unwind stand, adhesive application unit, core winding unit, servo driven cutoff module. Standard product range: core stock width 2.5" - 3.5"; core inside dia. range 1" - 2"; core length range 60" minimum - unlimi ...[more]
141	PCMC Model ECM-14 high-speed electronic core machine. New 1991. Serial # 7296. Includes unwind stand, adhesive application unit, core winding unit, servo driven cutoff module. Standard product range: core stock width 2.5" - 3.5"; core inside dia. range 1" - 2"; core length range 60" minimum - unlimi ...[more]
142	Weber Model 7 AG variable size, 1 or 2-ply, SOS, square bottom paper bag machine. Designed for 5" to 9" wide, 3.5" – 5.5" bottom, 14.5 – 30" tube length. This machine is an adjustable variable size paper bag machine that can be operated as a 1 or 2-ply machine. 2-position unwind, 40" wide, 60" diame ...[more]
143	60" Waldron / Ross Air Systems reverse roll coating station. Age 1995. 3-roll system. Reverse roll coaters meter an accurate thickness of coating between two precision chilled iron rolls & apply the pre-metered coating to the web. The amount of coating applied is controlled by the opening between ...[more]
144	Rotary die cutter. Was inline with Weber 7 bag machine die cutting window for potato bags. Lineshaft driven. 2-roll system.
145	Custom-built rotary die cutting section. Was inline with Potdevin 84 paper bag machine. Die cutting 2-ply potato bags, window. Sheeting mesh and applying to moving web. 10 pitch gearing. Two registration rolls. Will accept 29.5" wide material. Side shift die cutting section +/- 2". Shaft driven. Was ...[more]
145A	Gorden Chadwick Patch Unit
146	AMK / Ross kneader extruder / mixer, Class IV Model KE-40, Serial # 46560. AMK Machine KNE-0160L, Serial # 11966 kneader extruder. Working capacity 40 gallons. Class IV construction. Stainless steel. Two AC motors, 230/460 volt, 3 phase, 60 cycle. Includes touchscreen controls. Does not have drives ...[more]
147	22" Wolverine Cubline Model 21-1, 1-color flexographic inline printing press on a 2-color frame. 22" print width. 10" to 30" repeat range. Side register control on print cylinder. 10 pitch gearing. One plate cylinder included. 300 feet per minute. Most recently printing water-based inks. One 20" wid ...[more]
149	22" Wolverine Cubline 21-1, 1-color flexographic inline printing press. 21" print width. 10" to 30" repeat range. Manual cross the web register control. Manual pickup of plate cylinders. 230 volt. Fincor DC drive with 2 HP Reliance motor. Air-loaded dancer control, counter-weighted. 300 feet per min ...[more]
150	40" Bellmark Model AA5843, serial # 160888, FlexoPrint servo, single color flexographic printing press. 42" wide idlers throughout. Machine includes (2) Retroflex enclosed doctor blade assemblies, 42" wide, serial #'s 992648 & 992513. (1) 43" wide ceramic anilox roll, 4" in diameter. 44" wide ai ...[more]
151	38" Windmoeller & Hoelscher 1-color flexographic inline printing press. Approx. 10" to 30" repeat. 400 FPM. Lineshaft driven. 10 pitch. Has change gear system. Has registration roll. Has pull roll section. Machine is mounted on wheels. Manual registration both directions. 39.75" wide, 4.5" dia. ...[more]

152	(2) S&S Specialty Systems pressing tables. Two systems. Serial # 081700-D & serial # 081700-C. These units take three piles of product, compresses product, pre-made sleeve is put over compressed product and compressing product are released and product is then banded. These are fully pneumati ...[more]
154	55" Beck H-1 rotary sheeter. Serial number, 1792. Single position unwind for 70" OD maximum rolls. 2" steel shaft with 3" chucks for 3" cores. Manual edge guide. Segmented pull-roll. 14" to 71" cutoff range via cone gear system. 3-roll decurler bar. 55" wide idlers. 42" long tape section with jogger ...[more]
154A	Electrical Components
155	20" Wolverine Cubline Model CLRE-N-1310X 21-3, 3-color flexographic inline printing press. 20" print width. 10" to 30" repeat range. 3-color stations built on 4-color frame. Third color station is missing rubber roll & system that holds ink pan; otherwise, station is complete. 360 degree registr ...[more]
156	24" Stanford Model 142-HD doctor machine, rewinder. Center rewinder. Age 1980. Serial # 6804301. Designed to salvage doctor rejected or partially spoiled rolls. The 142 Series will unwind and rewind the rolls that are telescoped, unevenly wound, printed partially out of register or rejected for othe ...[more]
157	45" Synercon duplex, general purpose slitter rewinder. Serial # 0237. Model PSA 450. New 2002. Was slitting & rewinding tape products. Narrow width slitting. Center wind. Minimum gap rewind. Cantilevered rewind shafts; rewind shafts stay in machine. Rewind shafts allow for adjustable minimum gap ...[more]
158	72" Vertrud Model 72 EWB-HOV sealer. Serial # V-16866. Age 1992. Voltage 115-120 AC, 60 hertz, 1600 watts. 72" heat sealer. (3) air cylinders move bar up / down. One 88", 3" diameter steel idler. Approximately 2000 lbs. Round wire. This machine is heavy-duty. Typically used for heavier materials lik ...[more]
159	85" Seybold Hydrospace with Z action, Model CJH-MBS full hydraulic guillotine cutter / trimmer. Harris Seybold Model CJH-MBS. Serial # 3724. Knife, CHF-8A. With Microcut, Serial # MC6178. Set up for 220 / 440 volt input power. Machine has been updated over the years and was overhauled & rebuilt ...[more]
160	13.7" Eclipse LF350 digitally printed rolls, label cutting & finishing system. Serial # 15105523. Has cutting & reading for different shapes. Label lengths, up to 850mm. Cutting dies are not required. Maximum web width, 13.7". Linear cut speed dependent on graphics. Cut speeds, 800 – 400 axi ...[more]
161	3" Dusenbery Model 794 DH roll doctoring machine. Age 1991. Serial # 22239. Heavy-duty design for larger diameter rolls. Cantilevered unwind / rewind. EL electric eye. 2-roll automatic edge guiding, +/- 2". Air-loaded differential rewind for lightweight extensible film materials. Rewind shaft also h ...[more]
163	Valley Tissue Packaging automatic diverter with 2-lane choke infeed system. Serial # C253-1500-2-4-97. Model 1500, diverter 2-4 BRT. Age 1997. 2:4 diverter with a 9 foot long x 42" wide conveyor system. Shuttle the product with simple smooth motion. High speed. Was inline with 104", 2000 feet per mi ...[more]
164	120" Appleton Model A300 automatic core recutter. Operator loads core and sets the target to the desired core length. The operator then presses a button on the panel to activate the cutting cycle. The A300 advances and cuts the core until the parent core is consumed. The air powered knife and electr ...[more]
166	74" Dusenbery Model 260 FS duplex center surface rewind slitting & rewinding machine. Serial # 57690. Age 1980. 24" maximum rewind roll diameter. 1500 FPM. 2" minimum slit width. Dusenbery shear cut slitting. Tangential shear cut. (5) male knives. (90) female knives. Can easily razor slit in air ...[more]

168	74" Dusenbery Model 260 FS duplex center surface rewind slitting & rewinding machine. Age 1980. Serial # 57961. 24" maximum rewind roll dia. 1500 FPM. 2.25" minimum slit width. Updated EMT. Shear cut slitting. Tangential shear cut. Air female knife shaft, driven. (15) female knives. (25) air-loa ...[more]
169	Hyster S150A LPG Forklift, s/n A024D02918V, 15,000 Lb., 99.5" Lift (Late Removal - Available December 30th)
170	Hyster Model H200E LPG Forklift, s/n B7L1935H, 20,000 Lb., Dual Front Tires, Reads 1200 Hours
171	Drive Cabinet w/ABS ACS600 Drive, Delta S1 Drive, Control Panel w/Allen Bradlee Panel View 550 Read Out
172	Hot Melt Technologies Benchmark 315 Hot Glue Applicator w/Port. Cart
173	(2) Asst. Transformers
174	62" Shar center rewind rereeler and inspection machine. This machine was unwinding & rewinding rolls of metalized films. Unwind will accept 34" diameter rolls. Rewind will rewind 40" diameter rolls. Age approximately 1990. 1500 feet per minute. Variable speed. Cleveland controls. DC drive, 230 v ...[more]
175	50" Flexoline flexographic single color print station. Age 1980. Was inline with a CI printing press. Maximum web width 52". Maximum print width 50". Width of all rolls 52". 52" wide, 6.5" dia. rubber & ceramic coated anilox roll. 52" wide, 7" dia. impression cylinder chrome-plated. Bowed roll b ...[more]
176	30" Hudson Sharp 1-color inline flexographic printing press. Chain driven. Approx. 9" to 28" repeat. Typical operating speed 400 FPM. Chain driven. Manual registration. 10 pitch gearing. Pull roll section. One ink pan. 32.5" wide, 4" dia. rubber roll. 32.5" wide, 4" dia. chrome anilox roll. 33.5" wi ...[more]
177	70" Beck Model HF rotary sheeter. Age approximately 1985. Serial # 2556. (5) position unwind. Manual skew adjustment. Manual edge guiding, approximately +/- 2". 3" ID unwind shafts. 26" diameter rolls. (3) additional Beck unwinds could be purchased for \$3,000, Reference # 244760. Next inline is 4-ro ...[more]
178	15" Chesnut, serial # 286, 1-color Model 150 laminator / printer, 2-roll rotogravure coating station or register print station with dry-bond laminating station. Video available shows unit when it was inline with Nilpeter press; unit has been moved to the GBI warehouse; request video. Age 2003. Has b ...[more]
179	W&H Matador Model 26 striker bar cutoff, Model CD, F&S, variable size paper bag machine. Bag width, 2" to 9.5". Cutoff length, 4" to 18.875". Typical speed, 400 bags per minute, dependent upon paper, glue, if printing, operator & environment. Unwind to accommodate 36" OD roll. One 3" unw ...[more]
180	W&H Matador Model 26 striker bar cutoff, Model CD, F&S, variable size paper bag machine. Bag width, 2" to 8.25". Cutoff length, 4" to 18.875". Typical speed, 400 bags per minute, dependent upon paper, glue, if printing, operator & environment. Unwind to accommodate 36" OD roll. One 3" un ...[more]
182	41" Wolverine Model 41-1 HLRE Hydraline 1-color stack flexographic printing press for inline operation. 41" web width. 40" print width. One color print station. Has Harris Bruno enclosed doctor blade assembly, ceramic anilox roll. Press was last printing on film, cellophane, PVC, polypropylene. 10 p ...[more]
183	69" PCMC matched steel-to-steel embossing system. Model M1206. Unit was inline with PCMC 200 Series rewinding line embossing household towel. Rewinding operating at approximately 1500 feet per minute. Emboss rolls are air-loaded from top. Screw / Wedge adjustments between the two rolls; adjustment a ...[more]

184	69" PCMC matched steel-to-steel embossing system. Model M1206. Unit was inline with PCMC 200 Series rewinding line embossing household towel. Rewinding operating at approximately 1500 feet per minute. Emboss rolls are air-loaded from top. Screw / Wedge adjustments between the two rolls; adjustment a ...[more]
185	72" Johnstone 10 FSRS Slitter Rewinder, 2-drum surface rewind, heavy-duty, single shaft, slitting & rewinding machine. Serial # 17065A. 50" diameter rewind. Single position detached unwind stand, Johnstone Model 34, Serial # 32645. Shaftless operation. Constant tension system dancer; contro ...[more]
185A	(3) Pallets of Webber Bag Formers
185B	100 Series Potdevin Formers
186	56" Faustel 2-drum surface rewind single shaft rewinder. Was inline with a laminator operating at approx. 750 FPM. Was rewinding film paper laminations. Smooth steel bedrolls. Face width of bedrolls 56". Bedrolls are geared together & are timing-belt driven. 10" dia. bedrolls. Has upper rider ro ...[more]
187	Asst. Glue Pots
187A	Unused Montalvo Brakes. Approximately 4 complete with safety chucks and many other parts
187B	Score Cut Knives & Blades Approx. 200
188	Face Mount Chucks on 2
188A	Gear Motors
188B	Pneumatic Core Plugs, Shaft Mount on 2 (Tag reads 188A)
189	26" Konpon Kakohki Co. Ltd. manufactured in Osaka, Japan, 3-roll calendering system. 305x710. # CR-60106210. All three rolls are heated. Calender has electric motors & lead-type screws. Two motors on two of the rolls; total of (4) motors on two rolls. Can adjust left & right side of the roll ...[more]
190	30" wide laminating station. 31.5" wide, 4" diameter steel roll which is driven by GTR .75 kw, 220 volt, 3 phase, 60 hertz AC motor. Steel roll of laminating nip is driven. 31.5" wide, 4" diameter rubber-covered roll; air-loaded down onto the steel roll. Has manual gap adjustment to adjust the dista ...[more]
191	28" Potdevin single position unwind stand. 60" diameter roll. 3" unwind shaft. Manual side shifting left / right +/- 2". Floor pickup. Electric motor. Braking of roll using paddles. Was inline with Potdevin paper bag machine.
192	30" custom-built, single position unwind. 18" diameter rolls. One 3" air unwind shaft. 31.5" wide, 4" diameter steel idler. Manual edge guiding, left & right +/- 3". Skew roll built into the unwind. Mitsubishi electric brake. This unwind was inline with a process operating at approximately 150 f ...[more]
193	46" Wolverine Model 46-4 Hydroline 2-color on 4-color frame, stack, HLRE, flexographic inline printing press. Has some parts for 3rd and 4th print station. 46" web width. 46" print width. Quarter pitch gearing. 10" to 40" repeat range. Stainless steel ink pans & covers. Manual registration contr ...[more]
194A	44" Maxson single position unwind. Automatic edge guiding. Fife web guide with pneumatic sensor, +/- 4". 60" diameter roll. Was unwinding paper & board. Operating at 600 feet per minute. Was inline with sheeter. No unwind shaft.

195	44" Maxon 2-position unwind stand. No unwind shafts. 60" diameter. Safety chucks. 8" diameter Tidland air brakes. Air-cooled, air-operated. 46.5" wide, 3.5" diameter idler roll. Was inline with sheeter operating at approximately 600 feet per minute.
196	44" Maxon 2-position unwind stand. 60" diameter rolls. Was inline with Maxon sheeter operating at approximately 600 feet per minute. Two positions. No unwind shafts. Each position has manual side shifting +/- 2". Two steel idlers, 46.5" wide, 3.5" diameter.
198	Perini Model 606, Series 110, 2-lane logsaw with circular blade for toilet roll and / or kitchen rolls. Was cutting towel rolls most recently. Set up on 7.85" cut length. With existing clamps in machine, roll diameter 110/120mm or 4.4" – 4.8" diameter. By changing the clamps, other diameters could b ...[more]
199	62" Black Clawson 3-roll reverse roll coating station. Model M-2110. All rolls in machine are 66" wide. Two 66" wide chrome rolls, 11" dia. One 66" wide rubber-covered roll, 11" dia. Top chrome metering roll is air-loaded down to middle chrome applicator roll. Top chrome metering roll has wedge bloc ...[more]
200	104" Perini Echo Rodena automatic rewinder. Surface rewinder. Age 1990. Single position unwind, belt driven. 60" diameter. (4) 2.25" rewind shafts. 110" idlers & rolls throughout the machine. Steel-to-rubber embosser. Standard dimple pattern. (2) spare rubber rolls. Perf section with (4) blades, ...[more]
201	Jones cartoner. Age 1998. Serial # S-5548. Set up for format of regular, big & cube facial boxes. AB/SLC504 electronic platform. Can make flat boxes or pop-up cartons. Has Nordson Vista Series S3500 hot-melt glue applicator. This cartoner was inline with 7-lane Bretting facial interfolder. Inclu ...[more]
202	(5) Nordson hot-melt units. Five units being sold as a package. Unit # 1 is 3700 series, unit #: 3700-10K32/DQU, 200-240 volts, 50/60 hertz, 3 phase. Unit # 2 is 3800 series, Unit #: E-3860-1OL32/Q, 200-240 volts, 50/60 hertz, 3 phase. Unit # 3 is 3700 series, Unit #: 3700-10K32/DQU, 200-240 volts, ...[more]
203	Salwasser R-101 casepacker, age 1997, Serial # 98033347. Includes infeed lane, manual magazine feeder (300) cases in the magazine. (4) cases per minute maximum cycle speed. AB/SLC/504 electronic platform. What is being sold is a cartoner with conveyors going to Salwasser automatic casepacker. Lovesh ...[more]
204	24" Arrow Model 325-24 Slitter Rewinder narrow width slitting, minimum gap rewind, center rewind, cantilevered rewind shafts, duplex slitter rewinder. Serial # 9214. Minimum gap center rewind. Moveable rewind shafts which allow for adjustable minimum gap rewinding capability which allows for na ...[more]
205	102" PCMC ply-bonding unit. Serial # 7293. Ply-bonding scoring roll, PCMC score cut slitting section, 103" wide, 12" diameter, steel. Includes (22) air-loaded ply bonders. Each ply bonder is 3.5" wide. 1" wide plying wheels. Each ply bonder has its own regulator. 103" wide, 5" diameter Mount Hope bo ...[more]
206	42" Redex laminator. 2-ply thermal lamination system. Age 1999. Model Thermo Lam 3. MAP Systems Model LCP-10, serial # 701022, age 1999. MAP Systems Model LAM-42, serial # 651004, age 1999. 300 feet per minute. Was laminating films through heat & pressure. Includes (2) pillar treaters for treati ...[more]
209	Strong Robinette Model 2000 feeder. Age approximately 2005. High daily production, double-deck feeder. High speed capability, 100 to 150 bags per minute. Tube storage, up to ten hands. Handles stacks up to 5" high. Handles flat or gusseted tubes. Quick size changes. Tube length range, 16" to 52" (41 ...[more]
210	66" Worldwide 2-roll gravure coating station. Serial # 8K88-5. Age 1987. (2) idlers, 68" wide, 5" dia. aluminum. (1) 68" wide, 10" dia. chrome-covered gravure roll, fixed roll. Has adjustment on gravure roll. (1) air-loaded enclosed doctor blade. (1) 68" wide, 7" dia., backing roll, air-loaded into ...[more]

211	54" Retroflex K Series HD 2-color stack flexographic printer. Inline operation. New 2011. Serial # 20114528. Was inline with a paper tuber. Printing on kraft paper. 54" maximum web width. Maximum print width, 52.5". Maximum mechanical design speed, 500 feet per minute. Set up 27" to 43" repeat. Form ...[more]
212	43" Beck H-1 rotary sheeter. Serial # 1452. 4-position unwind for 30" OD rolls. Manual edge guide. Two 3" air unwind shafts. Segmented pull roll. 14" to 71" cutoff range via cone gear system. 3-roll decurler bar. 45" wide idlers. 42" long tape section. Delivering cut sheets to a jogger table. 50" ma ...[more]
213	86" Zink 3-roll gravure coating station. Serial # 4-401-10072. Order # S-302-96-06. Age 1996. Top roll is smooth steel, chrome covered. Middle roll is rubber-covered. Bottom roll is steel gravure. Bottom roll is stationary. Top & middle rolls are air loaded. Gap adjustments for the top & mid ...[more]
214	42" Windmoller & Holscher Model 8130, Alina 800 single color inline flexographic printing press. 1 color. Serial # 21220. Model 8130. Age 1970. This printer was inline with a paper bag machine. Mechanical speeds 1200 FPM. Typical operating speed 1000 FPM. Single color printer. Has second color s ...[more]
215	(14) Asst. Transformers
216	Asst. Belts on Wall & in (2) Boxes
217	(9) Sections of Yellow Pallet Racking
