Lot	Description
1	Amada FO MII 3015 NT 4 kw laser cutter, Year of manufacture: 2011, Serial No. 033, approx. 15,000 hours, with AF4000i-B oscillator no. L11840137 (2011), platform FANUC control, ICS Tricoool Thermal Eco T 105 chiller no. SN04538 (2012), Donaldson Torit DCE DFPRO 6-SPRK dust and fume filter no. 9020789 ...[more]
2	Amada PEGA-345 CNC turret punch with Amadan-04P-C control, 30 ton capacity, Year of Manufacture: 1994, Serial No. 04500700 with a quantity of tooling.A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot ...[more]
3	Amada HFE 100-3 CNC hydraulic downstroking press brake, Year of manufacture: 2000, Serial No. V000416, with a quantity of tooling as lotted.A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot is locate ...[more]
4	Amada Promecam GS1230 hydraulic plate shear, Year of manufacture: 1998, Serial No. C980914. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot.
5	Doosan Mecatec S310NM CNC lathe with FANUC Series 21i TB control, driven tooling and 12 tool changer, Serial No. LSC-1029, with Cromar Swarf conveyor (2007), swarf tipping bin and IEMCA Kid 70 type 16 bar feed (2006). A work Method Statement and Risk Assessment must be reviewed and approved by the A ...[more]
6	Doosan Mecatec S310NM CNC lathe with FANUC Series 21i TB control and 12 tool changer, Serial No. LSC-1030, with Cromar Swarf conveyor (2006), swarf tipping bin and IEMCA KID 70 type 16 bar feed (2006). A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior ...[more]
7	Doosan S280 CNC lathe with FANUC Series Oi-T control, 10 tool changer, Serial No. LNG-1142 with Samsys+ Multisaver P680 bar feed (2003). A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot.
8	Dugard Eagle 760 machining centre, Year of manufacture: 2007, Serial No. 072121114, with Fagor control, 16 tool changer and Suenn Liang SP-TBS dry transformer no. 4547 (2007). A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commen ...[more]
9	Dugard Eagle 760 machining centre Year of manufacture: 2007, Serial No. 072121126 with Fagor control, 16 tool changer and Suenn Liang SP-TBS dry transformer. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot.
10	Yang ML-25A CNC lathe with FANUC Series O-T control, Serial No. E10315, Year of manufacture: 1995, with 8 tool changer, swarf conveyor, swarf tipping skip and Hydrafeed Multifeed ML1 bar feed no. 2345 (1995). A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer ...[more]

- 11 Eaton Leonard Vectorbend tube bender, Serial No. VB30-246 CR 3949582, with a quantity of tooling. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item ...[more]
-
- 12 BPR CPH60 rolling machine, Year of manufacture: 1997, Serial No. 97C 0022, with control and a quantity of tooling
-
- 13 Ste-Co heavy duty powered rolls 6'. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and compl ...[more]
-
- 14 Ste-Co powered rolls 3'. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and completing any r ...[more]
-
- 15 BPR CP30 bending rolls, Year of Manufacture: 1999, Serial Nos. RR146 and 9404N
-
- 16 Guyson Super 6 bead blaster, Serial No. A15952 with Guyson DC41 dust extraction and CompAir BroomWade thermal dryer. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the s ...[more]
-
- 17 Sciaky P272 spot welder, Serial No. 840249. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment a ...[more]
-
- 18 Aerotecnica COLTRI model MCH-16ET standard breathing air compressor, Year of Manufacture: 2008, Serial No. 5237
-
- 19 Vangroenweghe T-300-K grinding machine, Year of manufacture: 2000, Serial No. 076010 with JB Thorne extraction no. J35809. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot cannot be confirmed to be ...[more]
-
- 20 Sawmaster Alexander Triple Twelve 320 powered hacksaw, Serial no. 42011-5/032 with 1.7m bench. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot cannot be confirmed to be in compliance with current h ...[more]
-
- 21 Colchester Triumph 2000 gap bed lathe, Serial No. 6/0044/2/269. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out ...[more]
-
- 22 Boxford lathe. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and completing any required re ...[more]
-
- 23 TOS Kurim Finesa FNK25 turret milling machine, Year of manufacture: 1978, Serial no. 23999. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior ...[more]
-
- 24 Adcock Shipley 1ES horizontal mill. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and compl ...[more]
-

- 25 Electriska LEC47A pedestal drill. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and complet ...[more]
-
- 26 Jones and Shipman surface grinder with Eclipse magnetic bed. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a ...[more]
-
- 27 AJA double ended grinder. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and completing any ...[more]
-
- 28 Union double ended grinder. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and completing an ...[more]
-
- 29 Brierley ZB25 tool grinder. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The pu ...[more]
-
- 30 Vanco vertical finisher with bench
-
- 31 Vertical finisher
-
- 32 Small bench mounted lathe with a quantity of tooling
-
- 33 Meddings T slot bench and three drill heads. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER re ...[more]
-
- 34 Bode seam welder, Type 2HSW-4-24, Serial no. 26071. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk asse ...[more]
-
- 35 Meddings drill, Serial no. 27330 with stand. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment ...[more]
-
- 36 LOC pedestrian hand hydraulic 250kg trolley lift, Year of Manufacture: 1991, Serial no. 27112. NB: This item has no record of Thorough Examination. The purchaser must ensure a Thorough Examination is carried out by a competent person prior to first use. The purchaser will be required to sign an ...[more]
-
- 37 Whitehead Junior horizontal sander, type STJ, Serial no. 8012. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out ...[more]
-
- 38 Double ended spindle polisher with additional polishing heads. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out ...[more]
-

- 39 Bench drill, type M4/3, Serial no 06953, on heavy duty bench. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a ...[more]
-
- 40 Miller Syncrowave 300P AC/DC tig welder, Serial no. RA0206 with TA XC600 water cooler
-
- 41 Migatron MTE 220 Dialog mig welder
-
- 44 Lincoln Electric Square Wave Tig 255 welder with Telwin GRA 90 water cooler
-
- 45 Citoarc M308 mig welder
-
- 46 Murex Autolynx 3 mig welder, Serial no. 99A/0274
-
- 47 Murex Tradesmig 280-3 mig welder
-
- 48 Miller Integra 243 mig welder
-
- 49 Miller Syncrowave 250 AC/DC tig welder
-
- 50 Kemppi Kempo mat 3200 mig welder
-
- 51 Oxy-acetylene welding set and trolley
-
- 52 Telwin GRA 90 water cooler
-
- 53 Telwin GRA 90 water cooler
-
- 54 Miller water cooler
-
- 55 Miller water cooler
-
- 56 Mobile Mobi-Flex Eur model P-001 fume extractor
-
- 57 Mobile Mobi-Flex Eur model P-001 fume extractor
-
- 58 Boge Kompressoren S50 air compressor, machine no. 27532 with air receiver tank and filters, buyer to supply and install metal sheets to secure the holes left in the building following removal. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying ...[more]
-
- 60 Hartridge Sertabush 500 inserter. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and completing any required remedial actions. The purchaser will be required to sign an undertaking confirming their agreement.
-
- 61 Marco hydraulic press. The purchaser is required to satisfy themselves as to the safety of this item prior to first use by carrying out a risk assessment and completing any required remedial actions. The purchaser will be required to sign an undertaking confirming their agreement.

-
- 62 Anbas TR300 / SA bandsaw with roller benches, Year of manufacture: 1996, Serial No. E16184. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot is located separately in the saw shed. This lot cannot be ...[more]
-
- 63 Electric/hydraulic power plant with connections to a twin winch test cradle with drum load measuring equipment sold as scrap only. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot.
-
- 73 Mindon gas fired curing oven, approx. external dimensions 4m long x 2.7m wide x 3.5m tall. Chimney not included. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot cannot be confirmed to be in complia ...[more]
-
- 74 Fabricated spray booth in wet back extraction room and drying room, approx. external dimensions 4.4m long x 6.7m wide x 2.6m tall, 3.2m wet back extraction room. Chimney not included. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal wor ...[more]
-
- 75 Fabricated spray booth, approx. external dimensions 3.2m wide x 4.8m deep x 3.1m tall. Chimney not included. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot cannot be confirmed to be in compliance ...[more]
-
- 76 Airflow gas overhead conveyor oven, approx. external dimensions 10.4m long x 3.7m wide x 4.5m tall. Chimney not included. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot cannot be confirmed to be i ...[more]
-
- 77 Airflow powder coating extraction booth , approx. external dimensions 3.3m wide x 2.5m tall x 1.1m deep with bench, approx. external dimensions 2.1m wide x 2.1m tall x 1m deep.A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commen ...[more]

- 78 Extraction / filtration plant. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. This lot cannot be confirmed to be in compliance with current health and safety standards, in particular PUWER regulations. The ...[more]
-
- 79 e-Jet 2 powder coat plant
-
- 80 Eurotec GCU400 powder coat plant
-
- 81 Yale 500kg hoist. NB: This item has no record of Thorough Examination. The purchaser must ensure a Thorough Examination is carried out by a competent person prior to first use. The purchaser will be required to sign an undertaking confirming their agreement.
-
- 82 Powder coat plant
-
- 83 Stock of powder coating
-
- 84 Four mobile drying racks
-
- 85 A quantity of CNC tool holders and a mobile unit
-
- 86 A quantity of Vee blocks
-

87 A small bench top surface plate, 30cm x 30cm

88 A quantity of chuck jaws, spacers, nuts and bolts

89 Four machine vice

90 Three machine vice

91 Two machine vice

92 Record No. 6 bench vice

93 A quantity of drill bits, nuts and bolts

94 Dividing head

95 Elliott and Marico rotary tables

96 Three chucks

97 Abwood machine vice

98 Dividing head

99 Chuck

100 Three self-reversing tapping attachments

101 A quantity of angle plates

102 A quantity of nuts bolts and threads

103 A cabinet and its contents of machine tooling

104 A quantity of machined blanks

105 A quantity of side and face milling cutters

106 Three chucks and a face plate

107 A quantity of spacers, spares and tooling

108 A quantity of chuck jaws and spacers

109	A quantity of boring bars and screwcut tools
110	A cabinet and it's contents of collets, taps, die's, boring bars, screwcut tools, grooving tools, U drills, reamers and standard drill bits
111	A cabinet and its contents of chuck jaws
112	Twelve boring tool holders
113	A quantity of collets, tool holders, chuck jaws and drill bits
114	Eighteen collets
115	A quantity of inspection equipment comprising micrometers, vernier, slip gauges etc
116	A quantity of threading sundries
117	A quantity of G clamps
118	Three tool boxes with contents of cutters and drill bits
119	A quantity of sanding belts
120	A quantity of pneumatic hand tools
121	A quantity of hand tools
122	A cabinet and its contents of general works consumables
123	A quantity of collets
124	The contents of the racking on the mezzanine floor. To be packed on to pallets by the purchaser for lifting down with forklift. No items to be carried down stairs. To be collected by Wednesday 20th February 2019. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctio ...[more]
125	A Kobe diesel space heater and an Ebac PF400 ventilator
126	The stock of metal and offcuts, as lotted. To be collected by Wednesday 20th February 2019
127	A quantity of paint shop sundries
128	Two bays of cantilever bar racking. Contents not included. Available for collection from Wednesday 20th February 2019
129	Two sheet metal mobile cabinets. Contents not included

- 130 Two cantilever heavy duty sheet metal racks, approx. 3.5m tall and 1.25m arms, one 7 tier and one 6 tier. Contents not included. Available for collection from Wednesday 20th February 2019. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. ...[more]
-
- 131 Six 4 tier racks. Contents not included. This lot is located on the mezzanine floor. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot. Available for collection from Wednesday 20th February 2019
-
- 132 Four bays of medium duty racking and two bays of light weight racking. Contents not included
-
- 133 Two fabricated benches measuring approx. 130x250cm and 110x80cm with Record 24 and Record 23 bench vices
-
- 134 Four mobile works benches. Collection is restricted to the final day of the clearance period
-
- 135 A quantity of works furniture. Contents not included. Collection is restricted to the final day of the clearance period
-
- 136 Inspection surface on bench
-
- 137 Clarke parts washer
-
- 138 Mitutoyo PJ250 profile projector
-
- 139 Machine vice
-
- 140 Crown surface plate
-
- 141 Four heavy duty benches
-
- 142 Almi pipe notcher and a Baileigh pipe notcher. Collection is restricted to the final day of the clearance period
-
- 143 Spot welder
-
- 144 Two metal trestles
-
- 145 A quantity of fixings and other consumables
-
- 146 An Avery scale
-
- 147 A quantity of casters
-
- 148 A quantity of works sundries
-
- 149 A quantity of works furniture
-
- 150 20' cargo container, Year of manufacture 2004. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot.

-
- 151 20' cargo container, Year of manufacture 2000. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot.
-
- 152 20' cargo container. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot.
-
- 154 20' cargo container, Year of manufacture 2000. A work Method Statement and Risk Assessment must be reviewed and approved by the Auctioneer prior to any removal work commencing on this lot.
-
- 155 Nissan EH02 A25U diesel fork truck, Capacity: 2,500kg, Year of Manufacture: 1989, Serial No. 005948, approx. 2250 hours (not warranted), Closed mast height approx. 2m. Thorough Examination certification expires 31/01/2020. To be retained by the auctioneer until Friday 22nd February 2019 for use during ...[more]
-
- 156 Four tote bin holders
-
